EDUCATION

Don Bosco Institute of Technology

Bachelor of Engineering in Information Technology (CGPA: 8.6)

Aug 2022 – Jun 2026

K.J. Somaiya College of Science

Higher Secondary Certificate (HSC) - 75.67%

Jun 2021 – Mar 2022

S.B.M. Padwal Vidyalaya

Secondary School Certificate (SSC) - 93.60%

Jun 2019 – May 2020

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Database Management Systems
- Object Oriented Programming
- Computer Networks
- Software Engineering

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, C
- **Frameworks & Libraries:** React.js, Node.js, Express.js, Vue.js, Flask, OpenAI API
- **Web Technologies:** HTML, CSS, REST APIs
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools & Platforms:** Linux, Git, GitHub, Docker, AWS, Postman, Jenkins, ArgoCD, Prometheus, Grafana, PowerBI, Excel

EXPERIENCE

SuperAGI

Software Engineer Intern

Jan 2026 – Apr 2026

Bangalore, Karnataka

- Developed and enhanced frontend features for the CRM platform using modern web technologies.
- Debugged and resolved **33** frontend issues across CRM modules, improving application stability and user experience.
- Improved frontend performance by **30%** optimizing **Vue.js components** and building reusable UI components.
- Maintained and updated the existing frontend codebase, ensuring performance, scalability, and code quality.
- Collaborated using Git workflows and CI/CD pipelines with **Jenkins** and **ArgoCD** for automated builds and deployment.

EXTC Department Website

Web Developer Intern

Dec 2024 – May 2025

Mumbai, Maharashtra

- Developed and maintained the official **EXTC department website** used by students and faculty for accessing academic resources and departmental updates.
- Implemented **responsive UI components** and improved frontend performance using modern web development practices.
- Collaborated with faculty members to ensure **content accuracy**, improved usability, and smooth deployment of updates.

PROJECTS

SafePath – Mumbai Waterlogging | **React.js, Node.js, Express.js, PostGIS, QGIS, Leaflet, OpenAI API**

- Developed a system to detect waterlogged areas and recommend safer travel routes in Mumbai.
- Visualized flooding reports on maps using **Leaflet**.
- Implemented route classification recommending safe, medium, and high-risk paths using rainfall, elevation, and waterlogging data.
- Built an **OpenAI chatbot** for first-aid guidance, safe routes, and emergency information during floods.

QuickSend – Email Marketing Platform | **MERN Stack, Microservices, JWT, SMTP**

- Developed an email marketing platform for managing campaigns and sending bulk emails.
- Implemented bulk email scheduling, audience segmentation, and customizable templates.
- Optimized email delivery using batching and asynchronous processing.
- Built **REST APIs** for microservices and integrated **JWT authentication** with SMTP email delivery.

FoodBridge | **MERN Stack, Socket.IO**

- Built a platform connecting hotels, NGOs, and volunteers to streamline surplus food distribution and reduce food wastage.
- Implemented **real-time communication** using **Socket.IO**, enabling instant request notifications and status updates between stakeholders.
- Developed secure authentication and role-based dashboards for hotels, NGOs, and volunteers using the **MERN** stack.

EXTRACURRICULAR ACTIVITIES

Design Team Member

July 2024 - May 2025

Domain Math Club

- Designed creative posters, banners, and digital content for technical events, workshops, and competitions.
- Collaborated with team members to create visually engaging promotional materials that increased student participation in club activities.
- Contributed to branding and event promotion through design tools and social media outreach.
